Attention: Ms Denice Hew

Dear Madam,

RE: IFCA CLUB MANAGEMENT SYSTEM

Let me start by saying thank you to the staff of IFCA who has helped with the implementation of IFCA D'Resort application. We at The Royal Selangor Golf Club are very excited to have such a respected solution by a well-known company.

In today's world, companies are looking for solution that is going to propel them ahead of their competitors. Choosing the right solution has been a difficult process, with many vendors to choose from. After reviewing the functionalities and features, only one solution stood out from the rest. We at The Royal Selangor Golf Club chose IFCA D'Resort because of the after sales support, value for price, and user-friendliness.

The feedback from some of our users is that they are now more comfortable using the application and certainly take less time in retrieving and accessing information that are requested of them. This is exactly what we are looking for. We need a system that meet our needs and easy to implement. Your solution gave us just that.

IFCA D'Resort is definitely a great choice and I would recommend this solution to any company that is looking to streamline their existing operations.

Thank you.

Yours truly,
The Royal Selangor Golf Club
